

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	2nd jul 2026
Team ID	
Project Name	NUTRITION ASSISTANT
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Problem Statement

Develop a **Nutrition Assistant Application** that enables users to create personalized nutrition plans, monitor daily food intake, track health progress, and receive diet recommendations. The system should also allow dietitians to manage clients, prepare meal plans, and monitor nutritional progress through a secure and user-friendly platform.

Team Discussion

The team discussed the growing need for a digital nutrition management platform. Existing solutions often lack personalized meal planning, progress monitoring, and effective communication between users and dietitians. Therefore, the team selected this problem statement to develop a complete MERN stack solution that improves healthy lifestyle management.

Step-2: Brainstorm, Idea Listing and Grouping

Brainstormed Ideas

1. User Registration and Login
2. Secure JWT Authentication
3. Role-Based Access (User, Dietitian, Admin)
4. User Profile Management
5. Client Profile Management
6. Personalized Meal Plan Creation
7. Daily Calorie Tracking
8. Nutrient Analysis
9. BMI Calculator
10. Water Intake Tracking
11. Weight Progress Tracking
12. Goal Setting

13. Nutrition Reports
14. Interactive Dashboard
15. Food Database
16. Healthy Recipe Suggestions
17. Admin Dashboard
18. Dietitian Approval System
19. Progress Charts and Graphs
20. Mobile Responsive Interface

Grouping

Authentication

- Registration
- Login
- JWT Authentication
- Password Encryption

User Management

- User Profile
- Client Management
- Role Management

Nutrition Management

- Meal Planning
- Calorie Tracking
- Nutrient Analysis
- Recipe Suggestions

Health Monitoring

- BMI
- Weight Progress
- Water Intake
- Goal Tracking

Administration

- Admin Dashboard

- Dietitian Approval
- User Management
- Reports

Step-3: Idea Prioritization

Feature	Priority	Reason
User Registration & Login	High	Required for secure access
JWT Authentication	High	Security
Role-Based Access	High	Different permissions
Client Management	High	Core functionality
Meal Plan Creation	High	Main project objective
Nutrient Analysis	High	Personalized nutrition
Progress Tracking	High	Health monitoring
Dashboard	Medium	Better user experience
Recipe Suggestions	Medium	Additional feature
BMI Calculator	Medium	Health assessment
Water Intake Tracking	Medium	Wellness feature
Reports & Charts	Medium	Visualization
Admin Panel	High	Platform management
Notifications	Low	Future enhancement
AI Food Recommendation	Low	Future enhancement
