Customer Problem Statement Template:

Define Problem Statements

PS-1

Field	Content
I am (Customer)	A health-conscious individual or fitness enthusiast.
I'm trying to	Maintain a balanced diet, monitor my daily calorie intake, and achieve my health and fitness goals.
But	I find it difficult to plan nutritious meals, track nutrients accurately, and stay consistent with healthy eating habits.
Because	Existing solutions are either too complex, lack personalized recommendations, or do not provide effective progress tracking.
Which makes me feel	Confused, unmotivated, and uncertain about whether I am following a healthy diet.

PS-2

Field	Content
I am (Customer)	A registered dietitian or nutrition professional.
I'm trying to	Create personalized meal plans, manage multiple clients, and monitor their nutritional progress efficiently.
But	Managing client records, updating meal plans, and tracking progress manually is time-consuming and inefficient.
Because	There is no centralized platform that integrates client management, nutrition analysis, and progress monitoring in one place.
Which makes me feel	Less productive and unable to provide timely, personalized nutritional guidance to all clients.
