

Project Design Phase-II Data Flow Diagram & User Stories

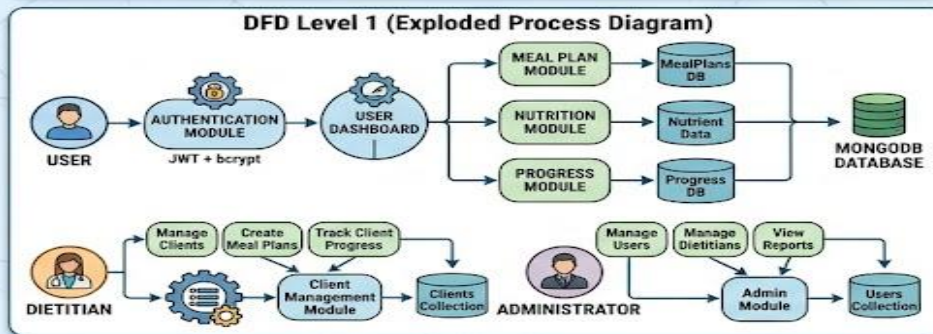

Date	2 ND JULY 2026
Team ID	
Project Name	NUTRITION ASSISTANT
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

DATA FLOW DIAGRAM & USER STORIES

1 DATA FLOW DIAGRAMS (DFD)

2 USER STORIES

USER TYPE	FUNCTIONAL REQUIREMENT (EPIC)	USER STORY NO.	USER STORY / TASK	ACCEPTANCE CRITERIA	PRIORITY	RELEASE
User	Registration	USN-1	As a user, I can register to register them on our system.	• Account created successfully	High	Sprint-1
		USN-2	As a user, I can create a meal plan.	• Account created successfully	Medium	Sprint-1
		USN-3	As a user, I can view my meal plan nutrition.	• Created account created successfully	Medium	Sprint-1
Dietitian	Dietitian	USN-4	As a user, I can create a meal plan with nutrient nutrients.	• Review accepted/modified successfully	Medium	Sprint-1/2
		USN-5	As a user, I can create a meal plan.	• Create, modified nutrition progress	Medium	Sprint-1/3
		USN-6	As a user, I can progress nutrition progress.	• Assessment created successfully	Medium	Sprint-3/4
Administrator	Administrator	USN-7	As a user, I can manage user planner any users.	• As a user, account created successfully	High	Sprint-1
		USN-8	As a user, I can manage dietitians.	• As a user, administrator created successfully	Medium	Sprint-1

3 DATA STORES & EXTERNAL ENTITIES

3. User Stories

User Type	Functional Requirement (Epic)	User Story No.	User Story / Task	Acceptance Criteria	Priority	Release
User	Registration	USN-1	As a user, I can register using my name, email, password, and role.	Account is created successfully.	High	Sprint-1
User	Login	USN-2	As a user, I can log in using valid credentials.	Dashboard opens after successful login.	High	Sprint-1
User	Profile	USN-3	As a user, I can update my personal profile.	Profile changes are saved successfully.	Medium	Sprint-2
User	Meal Plan	USN-4	As a user, I can view my personalized meal plan.	Assigned meal plan is displayed correctly.	High	Sprint-2
User	Nutrition Tracking	USN-5	As a user, I can log my daily meals and calorie intake.	Nutrition data is stored and displayed correctly.	High	Sprint-3
User	Progress Tracking	USN-6	As a user, I can monitor my weight and health progress.	Progress charts are updated correctly.	High	Sprint-3
Dietitian	Client Management	USN-7	As a dietitian, I can add new client profiles.	Client details are saved successfully.	High	Sprint-2
Dietitian	Client Management	USN-8	As a dietitian, I can edit client information.	Updated information is reflected correctly.	High	Sprint-2
Dietitian	Meal Planning	USN-9	As a dietitian, I can create personalized meal plans.	Meal plan is assigned to the selected client.	High	Sprint-3
Dietitian	Progress Monitoring	USN-10	As a dietitian, I can monitor client progress reports.	Progress reports are displayed accurately.	Medium	Sprint-4
Administrator	User Management	USN-11	As an administrator, I can manage users and dietitians.	Users can be added, updated, or removed.	High	Sprint-4

Administrator	Reports	USN-12	As an administrator, I can view system reports and analytics.	Reports are generated successfully.	Medium	Sprint-4
---------------	---------	--------	---	-------------------------------------	--------	----------

4. Data Stores

- **Users Collection** – Stores user, dietitian, and admin information.
- **Clients Collection** – Stores client profiles and health details.
- **MealPlans Collection** – Stores personalized meal plans.
- **Progress Collection** – Stores calorie intake, weight, BMI, and progress history.

5. External Entities

- **User** – Registers, logs in, tracks nutrition, and monitors progress.
- **Dietitian** – Manages clients, creates meal plans, and reviews progress.
- **Administrator** – Manages users, dietitians, reports, and system settings.
